Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Thursday 29 Jul 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Mostly dry tonight. Outbreaks of rain spreading north on Friday.

This Evening and Tonight:
Showers dying out through the evening to leave a mostly dry night with some clear spells. However, thicker cloud may bring a little rain to the far south by morning. Minimum temperature 12 deg C (54 deg F).

Friday:
Cloud and outbreaks of rain spreading north across the region through the morning. Rain becoming more showery in the afternoon, with the best chance of any sunshine in Northumberland. Maximum temperature 17 deg C (63 deg F).

Outlook for Saturday to Monday:
Saturday and Sunday rather cool and unsettled with some showers and perhaps the odd spell of more persistent rain. Monday drier and brighter, with any showers few and far between.
